Long-Term Road Closures to come Monday

The University Park Project construction will interrupt regular traffic in the Evansdale area.

MORGANTOWN – Road closures are coming ahead of forthcoming construction on University Park, West Virginia University's student housing development on Oakland Street.

Terry Hough, City Engineer & Public Works Director, reports that March-Westin will be closing Oakland Street and Country Club Road, in the area from St. Joseph's Street to Harding Street, for approximately 18 months while construction is ongoing.

St. Joseph's Street will be permanently annulled on January 1.

Click to open a Google Map of the area pertaining to upcoming road closure.

During construction, construction fence and signage related to road closures will be posted around the blocks being built upon.

There may be times where temporary road closures are necessary on Oakland and Country Club Road, and those road closure permit applications are due to the Public Works Department at least 24 hours in advance. They will cone the area off, and post Lane Closed Ahead signs, and make sure to maintain a 12' driving lane along Oakland Street at all times.

For more information, call the Public Works & Engineering Department at 304-284-7412.
